

2008 Ingenix Health Care Technology Conference Detailed Class Listing

This detailed class listing will help you choose the classes you would like to attend during the conference. Classes are organized by Ingenix Solution Group, then by date and time. You can also use this as a guide for finding the presentations on your CD, as they are organized by the class IDs noted on this list.

Class ID	Class Title	Class Description	Date	Time	Location
Coding, Compliance & Reimbursement Management					
100	Coding, Compliance & Reimbursement Management Product Roadmap	Sneak preview of latest product enhancements and technologies in Ingenix's future.	5/14/2008	9:10 - 10:00	Miami 2
101	Payer PPS: Severity-Adjusted DRGs for Medicaid and Commercial Payers—MS-DRGs vs. APS-DRGs	Brief overview of MS-DRGs, their appropriateness for Medicaid and Commercial payers, and a review of the design and performance of APS-DRGs for these populations. Also, quantifying the impact of using MS-DRGs vs. APS-DRGs.	5/14/2008	10:20 - 11:50	Sun 5
102	Payer PPS: Medicare's New ASC Payment System	Learn the details of Medicare's new prospective payment system for freestanding ambulatory surgery centers, and discuss contracting issues for Medicare-based commercial programs.	5/14/2008	1:00 - 2:30	Sun 5
103	Save Your Hospital Big by Managing Medical Necessity	Learn how to avoid costly claim denials by incorporating Ingenix medical necessity solutions into your facility's revenue cycle.	5/14/2008	1:00 - 2:30	Sun 4
104	Meeting the POA Reporting Challenge	The ins and outs of Medicare's Present on Admission (POA) indicator, and which hospital-acquired conditions will affect Medicare reimbursement in FY 2009.	5/14/2008	2:50 - 4:20	Sun 4
105	More Medicare Changes Ahead: An Expert Review of the IPPS Proposed Rule for FY 2009	Learn about additional MS-DRGs modifications Medicare is proposing for FY 2009, as well as the resulting impact on reimbursement and coding.	5/14/2008	2:50 - 4:20	Sun 5
106	Payer PPS: Regulatory Survival Kit—How to Manage Regulatory Change	Strategies for identifying, implementing, and managing regulatory changes.	5/15/2008	10:20 - 11:50	Sun 5
107	Web.Strat™ Strategies: Code More Accurately Using the Web.Strat Compliance Module	Identifying and addressing compliance issues with Web.Strat before they become serious problems. Hear how one hospital is using Web.Strat to evaluate, monitor, and document achievements.	5/15/2008	10:20 - 11:50	Sun 4
108	What's New, What's Next: A Web.Strat™ Product Update	An interactive session on Web.Strat and the Web.Strat Compliance Module, in which we'll discuss new product enhancements and plans for future development.	5/15/2008	1:00 - 1:45	Sun 4
109	Payer PPS: Best Practices—APCs in the Commercial Environment	Realizing the full potential of Medicare PPS to control outpatient spending. Hear how a top payer organization overcame challenges.	5/15/2008	1:00 - 2:30	Sun 5
110	Best Practice: Successfully Migrating from Win.Strat™ to Web.Strat™	From Win.Strat to Web.Strat: Best practices for migrating while maximizing productivity and minimizing operational and financial impacts.	5/15/2008	1:45 - 2:30	Sun 4
111	Financial Impact of Medicare's Quality and Patient Safety Policies	The repercussions and financial implications of new Medicare policies: How payers are adapting.	5/15/2008	2:50 - 4:20	Sun 4
Decision Support					
200	An Overview of Impact Pro™, Impact Provider, and Impact Consumer	Core concepts for identifying at-risk members and the methods for delivering this information across the health care continuum.	5/14/2008	9:10 - 10:00	Emerald 4
201	Impact Intelligence for Payers/Impact Analysis Product Roadmap	Impact Intelligence for Payers: Current features and a preview of capabilities planned for future releases.	5/14/2008	9:10 - 10:00	Emerald 1
202	Symmetry Suite Roadmap	The future of Symmetry Suite of products and value added services.	5/14/2008	9:10 - 10:00	Orange Blossom Ballroom
203	Product Innovation: Impact Consumer and Provider	Discover how Ingenix clients are using the latest Impact solutions to extend the reach of care management.	5/14/2008	10:20 - 11:05	Emerald 4

2008 Ingenix Health Care Technology Conference Detailed Class Listing

Class ID	Class Title	Class Description	Date	Time	Location
204	Clinical Uses of Impact Analysis and Using the IA Output Data Mart	Using Impact Intelligence for Payers to answer questions such as "Are academic medical center patients really more complex than other patients?"	5/14/2008	10:20 - 11:50	Emerald 1
205	ETG 7.0 Enhancements Overview and Practical Applications	Explore new features of ETG 7.0 (improved severity adjustments within ETG base classes, improved clinical specificity of some ETG base classes, improved flexibility of annualizing chronic episodes, etc.), and how they've been put into action by a longstanding ETG customer.	5/14/2008	10:20 - 11:50	Orange Blossom Ballroom
206	The ePatient and Consumerism: The Impact of Technology on the Physician-Patient Relationship	Learn how to combine a 3D consumerism strategy with Impact Consumer and Impact Provider to support care coordination programs through the entire health management continuum.	5/14/2008	11:05 - 11:50	Emerald 4
207	Care Managing Special Populations with Impact Pro	Learn how to leverage Impact Pro to manage and reach populations beyond the usual suspects including behavioral health, oncology, substance abuse, and others.	5/14/2008	1:00 - 1:45	Emerald 4
208	Ingenix Tools in Health Policy Research: A Review of Current Research Activities and the Analysis of Physician Resource Use Measurement for Medicare Beneficiaries	An overview of the current research activities using the Symmetry groupers, featuring a project recently conducted by MEDpac which measured physician resource use for Medicare beneficiaries.	5/14/2008	1:00 - 1:45	Emerald 6
209	Using EBM Connect Quality Measures	EBM Connect as a performance measurement tool. This overview includes deployment options, i.e., EBM Connect as a stand-alone product, Impact Analysis, and Impact Pro.	5/14/2008	1:00 - 1:45	Orange Blossom Ballroom
210	Introducing ERG 7.0	This session covers the ERG development process, including how ERG takes advantage of Symmetry ERG 7.0, the differences between ERG release 6.0 and 7.0 and practical business applications.	5/14/2008	1:45 - 2:30	Emerald 5
211	Maximizing Your Software To Reach Business Goals with Consulting and Professional Services Solutions	An introduction to Ingenix Professional Services and Consulting offerings. Example focus areas include designing or revising member identification and stratification processes, developing effective gaps in care, integrating rules into care management workflows, incorporating clinical data in account reporting, and specialized analytic reports to help guide provider and consumer engagement.	5/14/2008	1:45 - 2:30	Orange Blossom Ballroom
212	Product Innovation: Specialty Analytics & Management for Oncology (SAM)	Introduction to Specialty Analytics & Management (SAM), a new product to be launched late 2008/early 2009, that will offer enhanced analytics for oncology by collecting and using clinical data to supplement existing administrative data.	5/14/2008	1:45 - 2:30	Emerald 1
213	Exploring the Utility of Symmetry ETG/ERG in Rare, Chronic Disease Management	A client presentation analyzing ETG and ERG use within a population of rare, chronically ill patients. Topics include Symmetry Risk scores as an indicator of cost and utilization, ETGs as a proxy for a disease registry, and the Positive Predictive Value of both ERGs and ETGs.	5/14/2008	2:50 - 3:35	Emerald 5
214	Product Innovation: Employer Group Reporting in Impact Intelligence for Payers	Learn how to use the EGR Module to report information to your accounts about their cost, utilization, and quality of services provided by the health plan.	5/14/2008	2:50 - 3:35	Emerald 1
215	Software and Services: Maximizing Value of Impact Pro	Discover ways in which Ingenix clients have used Impact Pro to address multiple business issues. Examples of successful consulting engagements will be presented along with ideas for additional services that are designed to help you incorporate best practices into your regular use of Impact Pro.	5/14/2008	2:50 - 3:35	Emerald 4
216	Turbocharge Your Symmetry Suite With Consulting and Professional Services	An overview of new opportunities for turbocharging your Symmetry Suite by taking advantage of Ingenix Consulting and Professional Services.	5/14/2008	2:50 - 3:35	Orange Blossom Ballroom
217	Practical Applications of EBM Connect w/ Customer Panel	A panel discussion of quality programs for care/disease management or physician quality measurement and reporting. Time will be allocated for a question and answer session with the panelists at the conclusion of the presentations.	5/14/2008	2:50 - 4:20	Emerald 6

2008 Ingenix Health Care Technology Conference Detailed Class Listing

Class ID	Class Title	Class Description	Date	Time	Location
218	Incorporating Impact Pro Output Into Your Case Management Systems	Come learn how Impact Pro customers are creating integrated platforms with their Case Management Systems.	5/14/2008	3:35 - 4:20	Emerald 4
219	Introduction to the Issues and Approaches in Measuring Cost and Quality	Using the output of ETG and/or EBM to measure quality and cost of care. Issues include attribution of providers to ETG episodes or EBM rules, creating peer groups for comparison, combining EBM rules or ETG episodes to create composite quality scores, etc.	5/14/2008	3:35 - 4:20	Orange Blossom Ballroom
220	Business Solutions for Improving Health Care Quality	This session will provide some examples of care quality measurement efforts and experiences with using the findings to promote quality improvement.	5/15/2008	10:20 - 11:05	Emerald 5
221	Impact of 7.0 on Provider Performance Measurement and P4P	Learn about new features of ETG 7.0. This course includes presentations from customers who are moving to ETG 7.0 for the purpose of provider measurement.	5/15/2008	10:20 - 11:50	Orange Blossom Ballroom
222	Using Impact Pro for Disease Management and Case Management; Impact Pro Data Mart and Results: Integration into Workflow and Analytics	Enhance your ability to identify target populations for CM and DM in Impact Pro, and integrate additional information from the Data Mart into your organizational workflow. Learn how to produce member lists that find targeted members. Quick and efficient identification and stratification methods will be presented.	5/15/2008	10:20 - 11:50	Emerald 4
223	Business Solutions for Pharmacy-Only Data	This session will discuss the Symmetry PRG methodology and illustrate a method of using pharmacy data to assess the likelihood of an individual having a wide range of chronic conditions.	5/15/2008	11:05 - 11:50	Emerald 6
224	Methods and Uses for EBM Connect Output	Discover tips and techniques for using EBM Connect files to meet various business needs, such as physician attribution, patient lists by condition and uniting ETG conditions with quality results from EBM Connect.	5/15/2008	11:05 - 11:50	Emerald 5
225	Creating Custom Physician Performance Measurements To Achieve Key Business Goals	Explore approaches to building custom peer definitions. The session covers configuration parameters and a step-by-step overview of the process for identifying ETGs for inclusion in profiling, as well as considerations for selection of quality measures.	5/15/2008	1:00 - 1:45	Emerald 1
226	ETG 7.0 Impact of Change on Your Business Processes	This session identifies changes related to ETG 7.0, assesses impacts, and describes strategies for creating improved business solutions that take advantage of ETG enhancements.	5/15/2008	1:00 - 1:45	Orange Blossom Ballroom
227	Introducing the EBM Connect Rules Manager Application	An introduction to the EBM Connect Rules Manager application; a hands-on demonstration of modifying a current EBM Connect rule.	5/15/2008	1:00 - 1:45	Emerald 5
228	Measuring Success with Case Management and Disease Management Solutions	Measuring the success of programs is an ongoing challenge for Care Management Teams. Come learn from Impact Pro clients how they are tackling this issue.	5/15/2008	1:00 - 1:45	Emerald 4
229	Data Validation – Ensuring Optimal Results	A workshop providing demonstration of the Data Validation Utility within Impact Intelligence for Payers™ and various recommended Quality Assurance audits. An overview of data implementation and production support services will be provided along with specific case studies.	5/15/2008	1:45 - 2:30	Emerald 1
230	New Product: Introducing Procedure Episode Groups (PEG)	An introduction to PEG, which is the newest addition to the Symmetry Suite of products. Includes PEG features, how it builds on ETG output, and examples of business applications for the analysis of specialty provider performance.	5/15/2008	1:45 - 2:30	Orange Blossom Ballroom
231	Preparing for EBM Connect Rules Manager	Prepare yourself for a smooth and easy implementation of the Rules Manager application. This session is a high-level prerequisite for Rules Manager training.	5/15/2008	1:45 - 2:30	Emerald 5
232	Working with Medicaid Data in Impact Pro and Engaging Medicaid Beneficiaries	Learn how organizations are integrating Impact Pro into their Care Management programs for engaging Medicaid recipients.	5/15/2008	1:45 - 2:30	Emerald 4
233	Trending with Impact Intelligence for Payers	Discover how Impact Intelligence for Payers (formerly known as Impact Analysis) can help organizations understand how technology affects trend analysis and how to incorporate the cost of that technology into trend forecasts.	5/15/2008	2:50 - 3:35	Emerald 1

2008 Ingenix Health Care Technology Conference Detailed Class Listing

Class ID	Class Title	Class Description	Date	Time	Location
234	Using Impact Pro for Total Population Health Management: Adding Value by Incorporating HRA Data	A discussion of how WEA Trust used Impact Pro for Total Population Health Management, including their use of Health Risk Assessments (HRA) survey data. New grouping methodologies will also be discussed.	5/15/2008	2:50 - 3:35	Emerald 4
235	Onward to Symmetry ETG 7.0: What it Will Take to Get There and What Paths You Can Take	Migrating from version 6.0 or 6.5 of Symmetry ETG to version 7.0. Topics to be discussed include new required input data fields, new configuration options, output changes, and new opportunities.	5/15/2008	2:50 - 4:20	Orange Blossom Ballroom
236	Putting Together a Composite Performance Score: Experiences and Challenges	Development of a composite performance score will be addressed including (1) definition and purpose of a composite score; (2) methodological challenges and issues to consider; (3) experiences of three health plans; and (4) preliminary data using EBM Connect performance measures.	5/15/2008	2:50 - 4:20	Emerald 5
237	Achieving Business Goals for Clinical Quality Improvement	Learn how to maximize the value of Impact Intelligence for Payers™ for achieving a broad scope of clinical quality improvement. Reporting on health care quality at the Member, Provider, Employer group and Product level will be demonstrated.	5/15/2008	3:35 - 4:20	Emerald 1
238	Using Additional (and Alternative) Sources of Data to Further Describe Population Health	Learn how additional (and alternative) sources of claims information can be used to further predict the future health and cost of members, tailor care management programs, and further monitor population health (including the outcomes of interventions).	5/15/2008	3:35 - 4:20	Emerald 4
EDI Solutions					
300	EDI Today . . . HIE Tomorrow: The Vision and the Challenges	Join us for a thought-provoking and informative overview of major industry trends, the effect on health care, and how Ingenix helps clients develop and optimize their EDI infrastructure to meet tomorrow's challenges.	5/14/2008	9:10 - 10:00	Sun 1
301	EDI Case Study: Successes with TransactionManager	This session will present EDI challenges, evaluation of different EDI solutions, and how Ingenix TransactionManager has enabled clients to save money and unlock the revenue potential of EDI. This session is intended for Providers, both Physician groups and Hospitals, and Vendors.	5/14/2008	10:20 - 11:50	Sun 2
302	EDI Standards & Regulations Open Forum	This open forum will provide an opportunity for industry constituents to get together and discuss EDI standards developments (X12 5010, CAQH CORE, ICD-10, etc.) and their implications for the health care industry.	5/14/2008	10:20 - 11:50	Sun 1
304	EDI Your Way - Clearinghouse and Direct Connections Roundtable: Part 1	An interactive roundtable discussion for payers, providers, and vendors. Come join the discussion and talk with your peers about clearinghouse and direct connection best practices that help create the connected community.	5/14/2008	1:00 - 2:30	Sun 1
305	Using EDI to Improve Your Revenue Cycle (for Providers)	An overview of opportunities for EDI-based improvements. This session is intended for Providers, both Physician Groups and Hospitals.	5/14/2008	1:00 - 2:30	Sun 2
307	EDI Your Way - Direct Connect and Clearinghouse Solutions (for Providers)	Ingenix EDI Solutions service offerings include direct connection technologies (TransactionManager), traditional clearinghouse services (Transaction Exchange), and innovative patient statements, patient payment, and ERA services. Join us to learn more. This session is intended for Providers, both Physician Groups and Hospitals.	5/14/2008	2:50 - 3:35	Sun 2
309	EDI Your Way - Clearinghouse and Direct Connections Roundtable: Part 2	Join us for part two of an interactive roundtable discussion for payers, providers and vendors in which end-user customers talk about their experiences with clearinghouse and direct connections.	5/14/2008	2:50 - 4:20	Sun 1
310	Introduction to Transaction Exchange - Ingenix EDI Clearinghouse Services (for Providers)	Learn how to easily exchange EDI transactions with more than 1,600 payers and discover tools that will help you integrate EDI into your revenue cycle management processes. (For Providers, both Physician Groups and Hospitals.)	5/14/2008	3:35 - 4:20	Sun 2

2008 Ingenix Health Care Technology Conference Detailed Class Listing

Class ID	Class Title	Class Description	Date	Time	Location
301	EDI Case Study: Successes with TransactionManager	This session will present EDI challenges, evaluation of different EDI solutions, and how Ingenix TransactionManager has enabled clients to save money and unlock the revenue potential of EDI. This session is intended for Providers, both Physician groups and Hospitals, and Vendors.	5/15/2008	10:20 - 11:50	Sun 2
312	Integrating Ingenix EDI into your Practice Management System (for Providers)	Come and discover how you can get better EDI integration with your practice management system, and unlock more EDI-enabled revenue cycle benefits. This session is intended for Providers, both Physician Groups and Hospitals.	5/15/2008	1:00 - 2:30	Sun 2
305	Using EDI to Improve Your Revenue Cycle (for Providers)	An overview of opportunities for EDI-based improvements. This session is intended for Providers, both Physician Groups and Hospitals.	5/15/2008	2:50 - 4:20	Sun 2
Employer Solutions					
400	Employer Product Roadmap	One year ago, we began a new conversation with our clients. This interactive session will give a progress check, solicit feedback, and chart a course for the coming year.	5/14/2008	9:10 - 10:00	Emerald 2
401	Emerging Topics in Health Care	This session covers current trends in primary care service delivery, including the latest concept in Employer Sponsored On-Site Health Care, "Medical Home." In addition, find out the results of an in-depth literature study of coordinated care and stand-alone disease management programs.	5/14/2008	10:20 - 11:50	Emerald 2
402	Individually Tailored Incentives: The Next Generation	This session will explore the next generation of health incentives, which will use multi-dimensional data to develop deep insights into the whole consumer including health needs, habits, practices and attitudes.	5/14/2008	1:00 - 2:30	Emerald 2
403	Generics: The Double Edge Sword-Driving Affordability and Medication Compliance	Generics can be an effective strategy for driving affordability and thus improving the chance members will be compliant with their medications. This session will help you understand the evolution of generics and provide information to help you feel comfortable in recommending generic utilization.	5/14/2008	2:50 - 4:20	Emerald 2
404	Health Care Policy Environment	With the 2008 presidential elections around the corner, health care policy is a hot topic at both the federal and state levels. This session will provide an overview of the current environment as well as a discussion of what the future might hold.	5/15/2008	10:20 - 11:50	Emerald 2
405	Return on Investment for Disease and Lifestyle Management Programs	What are the ROI impacts of a best-in-class health coaching and intervention program? We'll look at UPS' program from a holistic perspective – assessing results on both health and disability cost and utilization trends.	5/15/2008	1:00 - 2:30	Emerald 2
406	To Pay or Not to Pay Hospitals for Preventable Errors?	This session will focus on challenges of eliminating payment for "never events," following the new policy being implemented by Medicare. Discussion will include the extent of preventable medical errors, potential savings opportunities for employers and challenges associated with implementing such health care benefit changes.	5/15/2008	2:50 - 4:20	Emerald 2
Network Development					
500	What's New in 2008 for Ingenix GeoAccess® Products	Be among the first to see demonstrations of planned product enhancements and hear about new Ingenix GeoAccess products.	5/14/2008	9:10 - 10:00	St. George 106
501	Creating a Basic GeoNetworks® Report	Learn all you need to know about creating a report. Then find out how to convert a report from an overall analysis to a service area analysis, and learn more about the geographic overview map, service area details, and title pages.	5/14/2008	10:20 - 2:30	St. George 106
502	Creating Personal Provider Directories Using Ingenix GeoAccess® Products	Learn how to use ProviderMatch to search for providers; then compare this to the Radius Search Page option and the Data/Export feature in GeoNetworks®. Also, discover how to use DirectoryExpert® to create personal provider directories.	5/14/2008	10:20 - 2:30	St. George 108

2008 Ingenix Health Care Technology Conference Detailed Class Listing

Class ID	Class Title	Class Description	Date	Time	Location
503	Features and Pages to Help Analyze Your Provider Network	Learn more about the features and pages that are used for network analysis, see how to apply radii to provider maps and how to use the "include" tab to limit records displayed, and much more.	5/14/2008	2:50 - 4:20	St. George 106
504	How to Successfully Respond to Center for Medicaid/Medicare Services (CMS) Requests	Get pointers for using the large census data files that are sent with CMS reports; explain the services that our Outsource Services Team can provide to help you with these reports; and demonstrate the steps involved in responding to CMS' six-point analysis request.	5/14/2008	2:50 - 4:20	St. George 108
505	Creating Reports Using Advanced Definitions and Compound Access Standards	Learn how to respond to RFPs that require membership by rural, suburban, and urban classifications. Gain insight on how to assign place names, change data fields using expressions, apply filters to narrow your record count, and much more.	5/15/2008	10:20 - 2:30	St. George 106
506	Tips and Techniques for Completing RFP Templates	Learn how to set up data to facilitate matching results to a template; set up GeoNetworks® reports to supply calculations; set up queries to compile results into a template's format, etc.	5/15/2008	10:20 - 2:30	St. George 108
507	Ask the Experts, Ingenix GeoAccess Products	Product experts will be available to answer product questions and provide demonstrations related to the following products: GeoNetworks, DisruptionAnalysis, GeoCoder, DataCleaner, ProviderMatch and Streets.	5/15/2008	2:50 - 4:20	St. George 106
508	How to Win a Request for Proposal (RFP)	This session will demonstrate how to use various report pages in GeoNetworks® as well as other techniques to help you analyze your network and report information to increase the chances for winning RFPs.	5/15/2008	2:50 - 4:20	St. George 108
Payment Integrity Solutions					
600	Claims Payment Accuracy: Solutions Overview	Learn how Ingenix's point solutions, professional services and consulting can help manage claims costs, speed up claims payment and help prevent payment of erroneous, wasteful or fraudulent claims. Also, this session will address the importance of compliance and transparency in an environment of increased regulatory scrutiny.	5/14/2008	9:10 - 10:00	Miami 1
601	Ingenix Claims Editing Systems: General Session	Get up to speed on Ingenix Claims Editing System 4.0. This includes discussion of the value proposition, a product update, Professional and Facility editing capabilities, and the technology platform, as well as a product roadmap.	5/14/2008	10:20 - 11:50	Miami 1
602	Claims Editing: Introduction to 4.x (iCES®)	Learn more about the 4.0 platform in this course which includes a high-level overview of the application, additional functionality, and hands-on demonstrations.	5/14/2008	1:00 - 2:30	Sanibel 1
603	iCES® 2.5.2: Rule Building	This series of interactive sessions is designed to take you from basic rules creation through complex rules creation, including the final session which will teach you how to troubleshoot the rules you have written. Attendance is recommended at all sessions to maximize the benefit.	5/14/2008	1:00 - 2:30	Miami 1
604	Claims Editing: Rule Building (iCES® 4.x)	See how rules are built in the new system in this product demonstration course. You'll have the opportunity to gain hands-on experience building rules with guidance from experts.	5/14/2008	1:00 - 4:20	Sanibel 2
605	Claims Editing: Introduction to the Facility Editor in iCES® 4.x	Join us to learn more about the new Facility Editor in iCES 4.x. In addition, gain a better understanding of its rules and functionality and view its fresh look and feel.	5/14/2008	2:50 - 4:20	Sanibel 1
606	Claims Editing: Preparing to Upgrade (iCES®)	Prepare for your upgrade by attending this session which will provide information on what you should clean up, what is expected from you, and what to expect from the upgrade team.	5/14/2008	2:50 - 4:20	Tallahassee 3
607	iCES® 2.5.2: Troubleshooting and Debugging Rules	So, you built your rule but it doesn't work like you thought it would. This final seminar in the rules series will teach you how to troubleshoot (debug) your rules.	5/14/2008	2:50 - 4:20	Miami 1
608	An Ounce of Prevention is Worth a Pound of Cure: Best Practices in Prospective Health Care Fraud Detection	Learn how to navigate fraud detection hurdles by hearing actual experiences and best practices advice from payers with successful prospective fraud prevention strategies.	5/15/2008	10:20 - 11:50	Sanibel 2

2008 Ingenix Health Care Technology Conference Detailed Class Listing

Class ID	Class Title	Class Description	Date	Time	Location
609	Claims Editing: Custom Reporting (iCES®)	See the benefits of utilizing the Ingenix Technical Support group to help you automate your everyday iCES® reporting needs. Also, a case study of a performance analysis reveals how you can utilize system tuning, optimization, and maintenance to increase stability and reliability.	5/15/2008	10:20 - 11:50	Sanibel 1
605	Claims Editing: Introduction to the Facility Editor in iCES® 4x	Join us to learn more about the new Facility Editor in iCES 4.x. In addition, gain a better understanding of its rules and functionality and view its fresh look and feel.	5/15/2008	10:20 - 11:50	Tallahassee 3
610	iCES® 2.5.2: KnowledgeBase Update	A step-by-step demonstration of the Ingenix Edit Rationale Module. We will utilize actual claims data to illustrate the power of this lookup tool and the benefits of its ability to research flags and edits within the CES KnowledgeBase.	5/15/2008	10:20 - 11:50	Miami 1
611	Claims Editing: System Administration and Technical Overview for 4.x	Gain a better understanding of connection configurations, roles, and permissions in 4x. In addition, learn helpful tips and techniques for troubleshooting.	5/15/2008	1:00 - 2:30	Sanibel 2
612	iCES® 2.5.2 Best Practices - Client Session	Clients share their best practices and experiences gleaned directly from the implementation as well as lessons learned and the value that Ingenix Claims Editing System (iCES) brings to their claims operations.	5/15/2008	1:00 - 2:30	Miami 1
613	Claims Editing: Interface Roundtables	This panel discussion will cover the current capabilities of interfaces built between the iCES Professional and Facility Editors and various core claims adjudication systems.	5/15/2008	2:50 - 4:20	Sanibel 2
614	Claims Editing: Customizing 2.5.2 Reports	See the benefits of utilizing the Ingenix Technical Support group to help you automate your everyday iCES® reporting needs. Also, a case study of a performance analysis reveals how you can utilize system tuning, optimization, and maintenance to increase stability and reliability.	5/15/2008	2:50 - 4:20	Miami 1
615	Claims Editing: LCD Training (iCES®)	See how LCDs are used within iCES 4.x. In this session, we will demonstrate how the data is loaded and updated and explain the rules and relationships that are included.	5/15/2008	2:50 - 4:20	Sanibel 1
Physician Revenue Optimization
